# Sprayer Cleaning Workshop

**on 2-3 October 2019**

**at the Haus der Familie, Oberbozen, Italy**

Sprayer cleaning ( internal and external) is considered one of the most important element of the potential pesticide point source contamination and it is really necessary to find and disseminate way able to avoid or mitigate this risk. Several and different are the present mitigation solution proposed by researchers, regulatory body, sprayers manufactures and specific private company. This workshop aimed to exchange experiences from different stakeholders in order to provide improvements on this topic also through the demonstration and dissemination of solutions able to avoid or mitigate the contamination risk.

Accepted papers from the conference will be published as abstracts and will be available to delegates at the conference. Offers submitted by the 6 April 2019 deadline will be given priority for platform presentations. You can submit your offer using the attached form or online at our web site: <http://www.aab.org.uk>

Descriptions of papers can be submitted by mailing or faxing the attached sheet to the AAB Office, or online via our web site at <http://www.aab.org.uk>. Hover over 'Conferences' in the main menu and click on 'Submit an Abstract' from the drop-down list. This will take you to our Abstract Submission form where you can enter your contact details and upload your abstract as a word document. Please indicate if your offer is for a poster or a platform presentation. Alternatively, you can send your abstract to [carol@aab.org.uk](mailto:carol@aab.org.uk) at the AAB Office:
